Art Unit: 1794

DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Claims 1-8 and 10-38 are rejected under 35 U.S.C. 103(a) as being unpatentable over Yamada et al (U. S. Patent 6,335,479 B1).

Yamada et al disclose front and back side protective sheets for solar battery module comprising substrate sheet (1) coated with inorganic oxide thin film. Yamada et al suggest addition of pigment to back and front side protective sheets. Yamada et al also disclose clamed stacking of front and back side protective sheets (Figs. 23, 29). The filler layers 12 and 14 are made of polyolefin. The layer 303 and 304 can be on both sides of inorganic oxide coated substrate (1) (Col. 99, line 1 to col. 101, line 68). The polymer for layer 303 and 304 includes polyolefin (Col. 100, lines 55-67). Yamada et al disclose addition of additives such as pigment, filler, flame retardant, ultraviolet absorber and photostabilizer etc. to polyolefin resin forming layers 303 and 304 (Col. 100, lines 1-15). Ultraviolet absorber and photostabilizer such as benzophenone, benzotriazole, hindered amine etc are disclosed (Col. 9, lines 41-65 and col. 102, lines 21-30). Yamada et al disclose various embodiment including adhesive layer(s).

Therefore given the teaching of Yamada et al, it would have been obvious to a person of ordinary skill in the art at the time of this invention made to optimize design of back side protective sheet depending on application.

No claims are allowed.

Application/Control Number: 10/526,582

Art Unit: 1794

3. Applicant's arguments filed October 01, 2007 have been fully considered but they are not persuasive. In reference to rejection of claims 1-8 under 35 U.S.C. 103(a) as being unpatentable over Yamada et al (U. S. Patent 6,335,479 B1), applicants mainly argue that Yamada et al do not teach or suggest heat resistant polyolefin resin layer comprises an ultraviolet absorber and a photostabilizer.

These arguments are unpersuasive because Yamada et al clearly teach addition of additives such as light and heat stabilizer to polyolefin layer at least at col. 100, lines 1-15, col. 9, lines 41-65, and col. 102, lines 21-30.

4. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Application/Control Number: 10/526,582

Art Unit: 1794

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to D. S. Nakarani whose telephone number is (571) 272-1512. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rena Dye can be reached on (571) 272-3186. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
